

Behavioral Health

Specialty trained Behavioral Health Nurses provide skilled assessment and observation, medication management, and short-term counseling. Individualized care plan designed to increase a client's functioning ability.

FACT:

- 25% of adults 65 years or older have some type of mental problem.
- Mental distress interferes with self-management and inhibits recovering from illness.
- 50% of CABG patients show evidence of depression within 6 months of surgery.

How Our Behavioral Health Program Works

Millenium incorporates a multi-discipline care coordination offering:

- Comprehensive client assessment
- Assessment of home environment/safety and family dynamics
- Individualized patient care management
